What is Ales for ALS?

Ales for ALS is a national fundraising campaign, started in 2013 by Mike & Cheryl Smith, Yakima Valley hop growers, to raise funds and awareness for ALS, or Lou Gehrig's Disease. Each year, their family's farm, Loftus Ranches, and YCH HOPS donate a unique blend of primarily experimental hops to breweries across the country, with the ask being a donation to ALS.net of at least \$1 per pint brewed. This year, over 100 breweries nationwide will create and brew their own beer to best showcase this year's special blend of hops! Visit www.AlesforALS.com for more.

What is ALS.net?

ALS.net is a global awareness and fundraising movement that supports the ALS Therapy Development Institute, the first and largest non-profit biotech focused 100% on ALS research. www.als.net

What is ALS?

ALS is a progressive disorder that slowly robs a person of their ability to talk, eat, or move on their own. Worldwide, 500,000 ALS patients are waiting for a treatment, with someone new being diagnosed every 90 minutes. Currently, no effective treatment or cure exists for ALS.

Great Beer. Great Cause.
